DIRECTORY OF PUBLISHERS AND BOOKSELLERS IN INDIA

Second Edition

Revised, Up-dated and Enlarged

This revised and enlarged edition of the *Directory of Publishers and Booksellers in India* contains much larger number of addresses of Publishers and Booksellers. Further, much more information has been given about them and their field of operation. The Directory includes postal addresses, phone numbers, fax numbers, email addresses and websites, wherever available, of more than eight thousand leading Indian Publishers, Wholesalers, Booksellers, Importers and Exporters.

It is hoped that the Directory in its present form would be highly useful

PREFACE

The first edition of this Directory was published in late 70s. Since then many new Publishers and Booksellers have come up and many old Publishers and Booksellers have disappeared. The Directory needed revision long back. For the last about twenty years I have been receiving letters from a large number of Organisations for bringing out a revised edition of the Directory. But because of my engagement with other books, I could not bring out the revised edition and offer a humble apology to my well-wishers whom I kept waiting for about two decades.

Now, I have great pleasure to place in the hands of the readers revised and enlarged edition of the *Directory of Publishers and Booksellers in India*. The revised edition contains much larger number of addresses of Publishers and Booksellers. Further, much more information has been given about them and their field of operation.

It is hoped that the Directory in its present form would be highly useful for Publishers and Booksellers in mailing their publicity material. The Directory would also be useful for Librarians for getting information about Publishers and Booksellers in India for their procurement of books.

While every possible care has been taken to avoid mistakes, the compiler and the Publishers do not accept responsibility for any mistakes which still creep in.

The telephone numbers have been undergoing changes, particularly addition of digit 2. We have added digit 2 before old telephone numbers wherever we had information. The users of the

Directory are requested to ascertain the position in regard to addition of digit 2 wherever it has not been added.

The compiler would be grateful if any mistakes in the Directory are brought to his notice and the same would be corrected in the next edition.
